INVITATION TO CREATE

A River of Colour

*

Look for **colours** inside your house and outside.

Collect colours from everywhere and everything…

What could it be?

A scrap of **fabric**

A **page** in a magazine or a newspaper Something from your **recycled** bin

- something clean!

The outside leaf of a **cabbage** just prepared

The paper **label** of a tin

A flower **petal** that has fallen

A **feather** on the grass

A small **stone** on the path

A **twig** left behind.

GATHER the colours you can find.

PLAY with how you can organise them.

Which colours do you like **TOGETHER**?

Which colours like to keep separate?

Maybe they all **MIX UP** together.

What happens when you change which colours sit side by side? Does it look different?

Can you shape the colours into a river . . .

and
where
does
that
river
flow

shape

cut

stick

glue

draw

What does it look like?

Can it take a different shape? An earthquake, a mountain, an ocean, a galaxy?

Can you keep your river safe, or maybe it's happy to come apart . . .
